## EDUCATION

**2020 - 2022**

**Masters of Computer Application**  
S.A Engineering College

**2017 - 2020**

**Bachelors of Computer Application**  
Dr. M.G.R Educational and  
Research Institute

## LANGUAGE

- Java
- Kotlin
- SwiftUI

## ABOUT

Mobile App Developer with 1 year of experience in computer vision projects, Restful API development, and Retrofit.

Skilled in creating robust and user-friendly mobile applications for Android.

## WORK EXPERIENCE

**Software Developer**      **April 2022– Present**  
**Robotix learning solution pvt ltd**  
**Chennai**

### Computer Vision-Based Object Recognition App

Developed a mobile app using computer vision algorithms for real-time object recognition and utilized machine learning models for object classification and achieved high accuracy.

### Restful API Integration App

- Created a mobile app that integrated with a Restful API for retrieving and displaying data from a server.
- Implemented Retrofit library to handle API calls and data parsing.
- Designed a clean and user-friendly interface to showcase the fetched data.
- Implemented caching mechanisms to improve app performance and offline capabilities.

## PERSONAL PROJECTS

**Chat Application via Socket:** Developed a real-time chat application using socket programming, enabling users to communicate instantly and securely over a network.

**Notepad Application:** Created a versatile notepad application that allows users to create, edit, and organize notes effortlessly, enhancing productivity and organization.
