

# Kaaviya Suresh

UI / UX Designer

## My Portfolio

[www.behance.net/kaaviyasuresh](http://www.behance.net/kaaviyasuresh)

As a visual design enthusiast, I'm passionate about creating aesthetically pleasing designs, user interfaces, and websites. I believe that a good design comforts the user and enhances their overall interactions and experiences with it. Beyond being a girl who loves to design, I am a die-hard fan of skies.

— "Just a girl who loves to design"

## Projects Worked On

### Designed A Schedule Management App - "Schedit"

Figma

Schedit is a family schedule management app for parents that helps them maintain both their schedules and their children's schedule. I designed this app using the figma software.

[@ Case Study](#)

UI Interfaces | Prototyping | Wireframes & Etc.

### Developed Two Websites

Html, Css & Bootstrap

As a self-taught web designer and developer, i built two responsive websites.

- ▶ A lyrics website that provide lyrics for different language songs.
- ▶ A website for a freelance graphic design company.
